MindDance Coding

Kids will learn in the MindDance Scratch Lab by creating their own video games, animated stories, and interactive art. They will build their projects in Scratch, an MIT-Developed computer programming language for children. Our teachers provide inspiration and support as students experiment, tinker and share. MindDance Scratch lab is a warm and supportive learning community. In between weekly classes, students are able to develop Scratch projects at home, publish their work to the Scratch website, and introduce Scratch to siblings, parents, and friends. Thanks to the way we group our students, this is a great class for Scratchers of all levels from new to advanced.

Acting for the Camera:

Lights, Camera, Action! in this cinematic class, students will explore the world movie making both in front and behind the camera. Classes will include audition technique, silly commercials, re-making their favorite scenes from TV shows, and more! Each week the students will experience time acting for the camera as well as exploring the other jobs in production such as director and camera person. The best part is since everything is taped, the students get to watch their performances and enjoy the thrill of being on screen! We'll post videos to a private channel online so students can download and watch the videos with their families and friends.
