

Scientists, Technical Wizards, Engineers, Artists, Mathematicians, and all Inventors--STEAM Club is forming in mid-February.

Meeting Day: Wednesdays
First Day: February 14, 2018
Time: 4:00 PM - 5:30 PM
Location: Technology Lab
Host: Mr. Binder
Sponsor: Ms. Anderson

If you want to experiment and learn more about science, technology, engineering, art, and math then STEAM Club is for you!

You don't have to be an expert in STEAM--you only need to be curious about STEAM to join.

**Any student from Kindergarten through Fifth Grade is welcome to join!
Due to limited space, the first 5 students from each grade level to turn in their permission slip will have priority in joining, so turn in your permission slip A.S.A.P.**

[The permission slip deadline is Wednesday, February 7, 2018.](#)

We will be creating slime, making paper helicopter propellers, putting together 3D puzzles, making scent boxes, and much, MUCH more!

This is a FUN and EXCITING way to learn more about STEAM and make friends with students from every grade level!

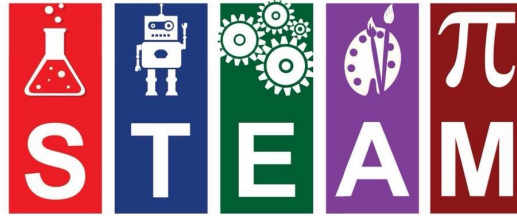

We will have a STEAM showcase toward the end of the year to share our favorite projects with the school, family, and friends!

Please email or call Mr. Binder with any questions!
