

Scientists, Technical Wizards, Engineers, Artists, Mathematicians, and all Inventors--Summer STEAM Club is forming from June 12-June 28.

Meeting Days: Tuesday, Wednesday, and Thursday
First Day: June 12
Last Day: June 28
Time: Session 1: 10AM-12PM | Session 2: 1PM-3PM
Location: Technology Lab/Library
Host: Mr. Binder

If you want to experiment and learn more about science, technology, engineering, art, and math then STEAM Club is for you!

You don't have to be an expert in STEAM--you only need to be curious about STEAM to join. STEAM Club is ran from a grant and is free of charge.

Any student entering First to Sixth Grade in 2018-2019 is welcome to join!

Due to limited space, each session will accommodate 20 students only.

Sign-up will be on a first-come, first-serve basis.

Students who did not experience the Spring STEAM Club will have priority as well.

[Click Here for the online permission form: Deadline is Friday, April 13, 2018](#)

We will be focusing on Solar Robotics, Rube Golberg Machines and Design, Blockly Coding, Engineering and Design, and much, MUCH more!

This is a FUN and EXCITING way to learn more about STEAM and make friends with students from every grade level!

Please email or call Mr. Binder with any questions!
